Evil is growing in the Middle East. ISIS is crucifying children for their faith, taking women and girls captive as sex slaves, beheading any who fail to conform to their ideology and driving the Christian population from their homes.

In the last ten years Iraq's Christian population has shrunk from **1.5 Million** to approximately **200,000**. The majority of which have been displaced all across the world.

In the last five years Syria has gone from approximately **2,000,000** Christians to **400,000**.

Many Christian cities in the Middle East are now near ISIS territory or under ISIS control.
